FAT (Face Authenticator Technology) Process

FAT (Face Authenticator Technology) for Three Uses.

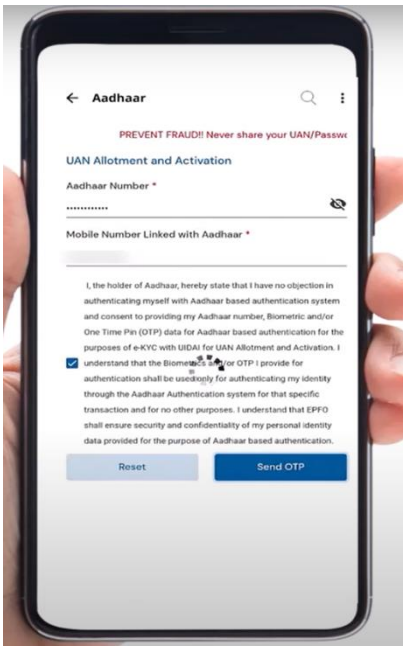

1. UAN Allotment and Activation
2. UAN Activation
3. Face Authentication of already activated UAN

Steps for UAN Allotment and Activation

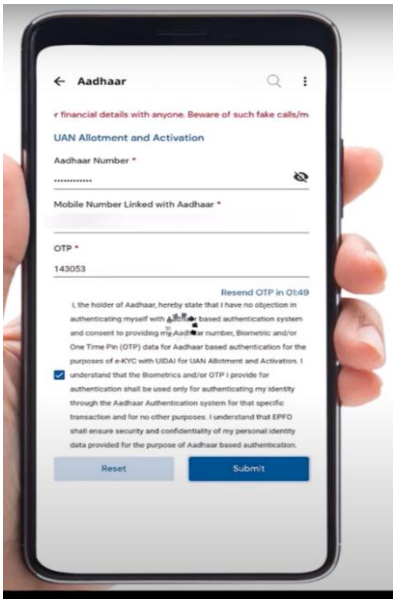

- Download Umang App and the Aadhaar Face RD App from Play store on your Smart Phone.
- Once downloaded, Open the Umang App.
- Enter your Mobile Number which is linked to your Aadhar number.
- Click on login through OTP
- Enter the OTP
- Create 4 digit MPIN
- Search for EPFO
- Select UAN Allotment and Activate UAN

- Enter your Aadhar Number, check box and click on Send OTP (If you have a UAN which is already linked to your Aadhar, it would throw out the message, if not the app will proceed)

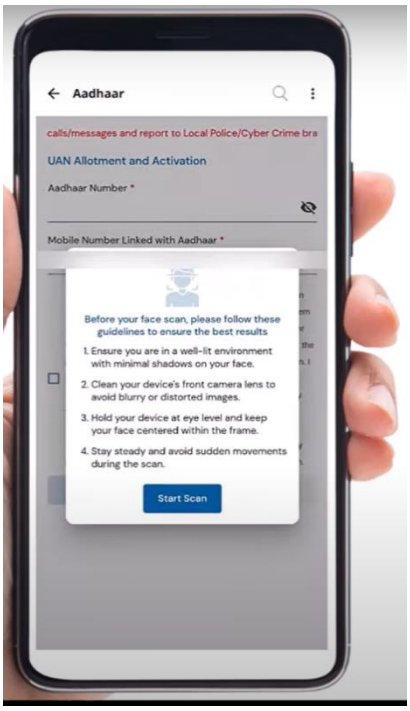

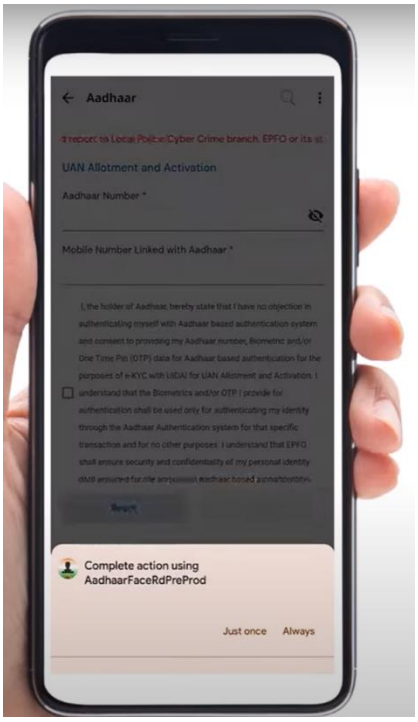

- Enter the received OTP and click on Submit button

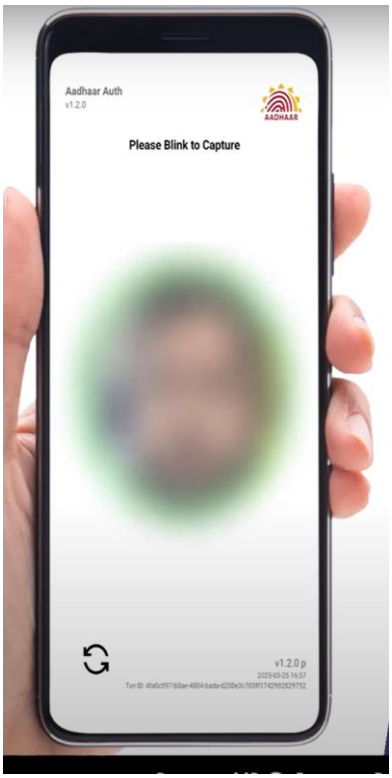

.

- Before you scan your Picture, follow the instructions displayed on your screen of your phone

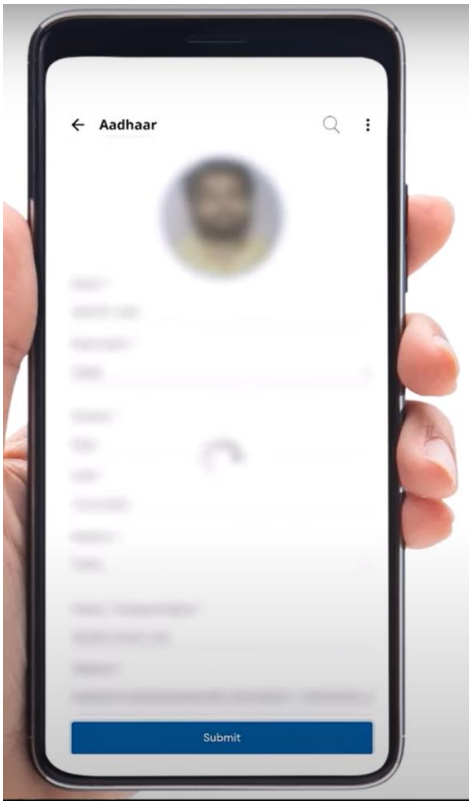

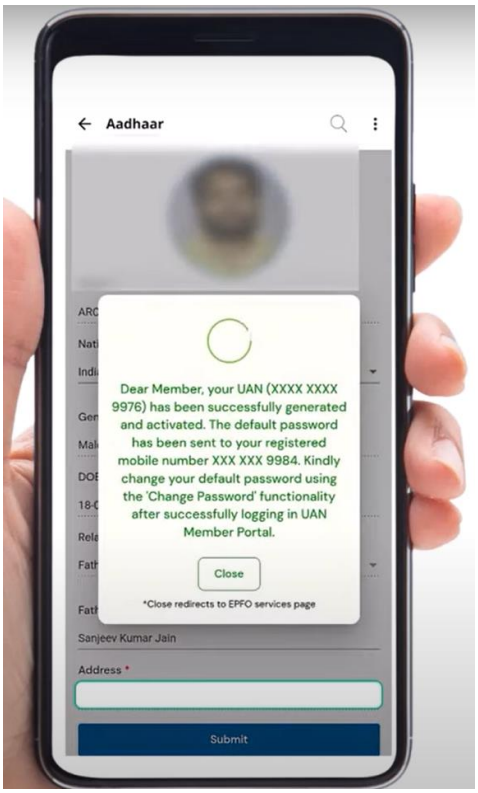

- Take your Picture

- Your details will be auto populated on the screen, verify the same and click on Submit button

- You will get the below message on your screen

- You will be getting your UAN Number and temporary password to your Mobile number where you can login to EPFO and change your password on below link

  https://unifiedportal-mem.epfindia.gov.in/memberinterface/

- Once uan no generated share the uan no with HR team
